

Why get a second opinion?

1. You may have more options for your treatment better suited for you
2. Your doctor may not be able to diagnose your condition
3. You may have a rare or unusual diagnosis
4. Or your doctor may not be a specialist in your condition
5. You might have questions your doctor cannot answer
6. You may want peace of mind knowing your diagnosis is the right one

SecondMedic

**Get a world class second opinion for
your health, today**

Our VISION

Second Medic was founded to address the gap which currently exists - patients are anxious to know if they are on the right treatment path and what alternative options they have. We aim to make Second Medic to be the one stop solution for any and all healthcare needs which can be addressed remotely.

Our MISSION

Second Medic aims to provide seamless connection to our leading healthcare experts across the world, and improve accuracy by optimizing medical diagnosis. Our core objective is to provide best in class Remote Medical Second Opinion, supporting our patients Globally.

*Healthcare should not be
a privilege, but a right to
all.*

Striving for excellence

We are the first company founded with the core ideals of treating our patients with the same care and attention as a doctor would give to one of their own family.

We accomplish improved accuracy by providing multi panel, multi disciplinary clinical grade triaging process underpinned with Patented AI based scoring technique.

We aim to make Second Medic to be the one stop solution for any and all healthcare needs which can be addressed remotely.

Why us?

Our doctors are ranked amongst the best in the world, working at prestigious medical institutes

Our second opinions are delivered quickly and personalised to you

We deliver exceptional clinical and research expertise across a wide range of medical and surgical specialties, including Neurology, Neurosurgery, Cardiovascular health and Oncology

Our doctors are well versed in evidence-based medicine, with knowledge of the latest research occurring in their respective fields.
